Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: During the course of the interview, claims 3, 4, and 5 were discussed as they relate to the prior art of record. Mr. Frankeny explained in great detail how the invention functions differently than the applied prior art of record. Examiner has discussed that Applicant's invention is clearly understood but the claims in the instant application still read on the Odom reference. After discussing the prior art of record and the instant invention, Mr. Frankeny tentatively agreed to further define the claims. In conclusion, it was agreed that any amendment and argument that Applicant would provide in response to the non-final office action would be considered upon submission and Examiner will contact Applicant's representative if there is any allowable subject matter and or suggestions for claim language.
